7.1 Proposal of M/s Opto Infrastructure Ltd.				
About the Project :				
Name & Address	Land-Acres	Product/ Activity	Investment (Crores)	Request
M/s Opto Infrastructure Ltd. Plot No.24, Electronic City Phase – 1, Bangalore –100	250 acres of land at Pharma SEZ, Hassan	SEZ for Electronic Hardware	686.00	<p>➤ Change of activity from “SEZ for Electronic Hardware Sector, IT/ITES” to “Industrial Park for High Tech Manufacturing”</p> <p>➤ Recommendation to GOI for denotification of SEZ Status</p> <p>➤ Extension of time</p>

Committee Decision	<p>The representatives of the company appeared before the Committee and explained that the project proposal to set up SEZ was approved in the year 2007 and formal approval of GOI was obtained in 2008. KIADB had given possession of land in the year 2010. The project could not be implemented for the following reasons:</p> <ul style="list-style-type: none"> • Implementation of Minimum Alternative Tax (MAT) and Dividend Distribution Tax (DDT) on all SEZ units and developers by GOI resulted in noninterest to put up units in SEZ Areas. • SEZ have contested the decision of GOI in the Hon’ble Court’s and the cases are at different stages and awaiting the outcome. • The SEZ scheme has not succeeded in Manufacturing Sector.
--------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

M B

Hence, they want to come out of SEZ scheme and want to establish an “Industrial Park for Hi-tech Manufacturing” in the land allotted to them and have requested SHLCC approval for the following;

- Approval for their proposal to come out of SEZ scheme and establish an Industrial Park for High Tech Manufacturing in 250 acres of land allotted to them by KIADB at Hassan.
- Recommendation to GOI for de-notifying the SEZ
- Extension of time by 3 years to implement the project.

They also informed that they are providing services to more than 150 companies and some of them have committed to establish their units in their proposed industrial park.

The Committee noted the opinion of CEO & EM, KIADB on the request of the company as follows:

- In spite of having the possession of land since 2008 and having given commitment to state Govt to develop SEZ, the concerned allottee has not shown any interest to develop industry. Thus, the purpose of acquiring the land for industry gets defeated.
- The present proposal of developing a private Industrial Area under domestic tariff within KIADB Industrial Area is not appropriate. KIADB land cannot be apportioned for a private industrial area. There is no such precedence and legality of such an action also needs to be checked. In fact, the land should be resumed, as per rules and KIADB should develop an industrial area on its own, to promote industrial growth in Hassan. There is a good potential for developing textile ancillary units or garment industries in that area due to presence of M/s Himmat Singhka.

The Committee noted the request of the company and informed to submit commitment letters from the companies that have shown interest to set up their units in their proposed Industrial Park. With this observations, the Committee decided to **defer** the subject.
